He possesses very refined tastes, a sympathetic heart and is a lover of justice. As the Chief Justice of the State High Court he considers it his solemn obligation to dispense evenhanded justice with scrupulous care. Ever since his assumption of the role of Government he has administered the State with conspicuous ability, without sparing any pains to promote the interests of his State and subjects. He is always anxious to explore new avenues and examine fresh channels which might serve to raise the moral and material status of his people and country.

The revival of the agricultural and industrial exhibition is a happy indication of the deep and enduring interest. His Highness takes in promoting the agricultural and industrial interests of his subjects. The inaugural ceremony of the exhibition was performed by His Highness the Maharaja on the auspicious occasion of his Raj Tilak which was celebrated in February 1935. A similar exhibition was being run on organised lines during the regime of His late Highness Maharaja

Sir Surendra Bikram Parkash Bahadur, K.C.S.I., and continued successfully during the reign of H. H. the late Maharaja Sir Amar Parkash Bahadur, K.C.S.I., K.C.I.E., but it had suffered a set-back in the year 1914 owing to the outbreak of the Great War and also due to the unfavourable agricultural conditions then obtaining. The measure taken by the present Maharaja in reviving the exhibition is sure to pave the way to commercial development of the State and will prove a success under the patronage of His Highness to whose mumificence it owes its origin.

Another event which marks His Highness' accession to his ancestral Gadı is the grant of certain concessions to his subjects, which include (I) remission of land revenue and forest outstandings up to the year 1932, (2) remission in the term of imprisonment of State convicts, (3) grants-in-aid for meeting the educational needs of the people, (4) provision of a gymnasium for use of the public, (5)

introduction of panchayat system, etc., etc.

A Bird's eye view of Nahan.

He is accessible to all and is fond of undertaking extensive tours with a view to studying the conditions of his people and keeping himself informed of the march of events in the State. He takes a keen personal interest in all that conduces to the general happiness and welfare of his people. His sterling and outstanding qualities of head and heart have won for him the affection of his faithful and loyal people.

In fact the young Maharaja during the short period that has passed since his investiture with full ruling powers has proved himself to be a very promising and an enlightened Ruler and gives bright promise

of proving himself a worthy successor of his illustrious father.

The name of Raja Udai Pratap Singh of Bhinga will remain a household word among the Kshatriyas for whom he has done so much, as well as among those members of other communities who admire an upright life full of good and benevolent deeds.

TUREISHY: RAFIUSHAN IFTIKHARUL MULK, KHAN BAHADUR, LT-COL., HAJI OOL HASSAN, M.A., LL B., Magbool Hassan, Minister for Law and lustice. Bahawalpur Government Minister-in-Waiting to H. H. The Nawab Ruler Bahadur, Bahawalpur State, belongs to a respectable family of the Kureish of Arabia Though hailing originally from the Meerut District his ancestors had long settled in the State before he was born at Bahawalpurin 1900. He received his early education in the State, and, later on, joined the Muslim University, Aligarh, where he passed his MA, LLB in 1925. From his earliest childhood he exhibited traits which gave promise of his future career.

His personal magnetism made itself felt in the sphere of his employment, where he won the golden opinions of his colleagues as well as the ruler under whom he served. He began his career in 1925, when he joined the personal staff of His Highness the Nawab Ruler Bahadur of Bahawalpur as an Aid de-Camp. But, it did not take long to discover that the young incumbent had in him the makings of a capable administrator. Accordingly, in 1927 he was promoted to the rank of Assistant Military Secretary. But this was only a stepping stone, as in January 1930 he was given the combined office of the Private and Military Secretary, with the additional charge of the portfolios of Education and Municipalities, and was, subsequently, raised to the status of Minister-in-Waiting

In 1932 he paid a visit to England and other Western countries in company with His Highness the Nawab Ruler Bahadur—a visit which he repeated again in 1935. The beautiful volume in which he has chronicled the impressions of his first itinerary is an eloquent testimony of his great powers of observation and expression. He has also been to the Near East and performed the holy pilgrimage.

Recently, his services to the State have been recognised by the Government by the grant of the title of Khan Bahadur, which is the first distinction of its kind to be conferred upon a purely Riyasti Vizier in the State. He is also the recipient of many decorations and distinctions from the State, and is a member of the Court of Muslim University, Aligarh and His Highness the Nawab Ruler Bahadur's representative in the Senate of the Punjab University

During the 6 years of his incumbency he has introduced many useful administrative reforms in the departments under his control, particularly the Municipalities, which he has completely reorganised. He is a very capable and efficient administrator, having won the highest praise of both the ruler and the ruled by his politeness, impartiality, and keen sympathy with the people of the State. He is immensely popular with all classes of His Highness's subjects.

His services were recognized by the grant of the King's Police Medal and the titles of Khan Bahadur and O.B.E., as also a grant of land from Government

In 1923 his services were lent to His Highness the Maharaja Dhiraj of Patiala as Home Secretary, but His Highness soon raised his status to that of Home Minister placing under his control the administration of some of the most important Departments in the State. In 1928 his meritorious services to the State were recognised by Government by the grant of the high title of "Nawab" which is now a rare distinction.

After seven years' loyal and efficient service to the State His Highness was pleased, as a mark of favour and appreciation, to appoint the Nawab Sahib as his Prime Minister and confer upon him the following honours and rewards:—

him the honour of Knighthood.

OHIUDDIN FAROQUI, NAWAB, SIR, the only son Kazi RAYAZUDDIN MUHAMMAD FAROQUI, was born in the year 1891 and belongs to one of the few historic families of He is the eleventh in Bengal descent from Kazı Omar Shah Faroqui, a linea descendant of Hazrat Omar Faroqui, the second Khalif of Arabia, who migrated to India and settled at Delhi He was sent out to Bengal as a military commander by Emperor Furrokhshiar and in recognition of his meritorious services was given the grant of extensive Jaghir (rent-free-land) of two parganas in the district of Tippera in Bengal and the original Sanad conferring the Jaghir by

Emperor Furrokhshiar is still in the possession of Nawab Sir Mohiuddin.

Kazi Aftabuddın Faroqui, the grandfather of Nawab Sir Mohiuddin, rendered great help to the Empire at the time of the Sepoy Mutiny His only son, Kazi Rayazuddın Muhammad Faroqui, the father of Nawab Sir Mohiuddin Faroqui, was recognised as the most influential Muhammadan leader and was highly respected by all communities, particularly for his extensive charities

Nawab Sir Mohiuddin was educated at the Dacca College under the guardianship of Mr. Archibald, the Principal of the College. Even from a comparatively early age he developed a spirit of public service and a love for public life.

He was the first non-official Chairman of the Tippera District Board, a Commissioner of the Comilla Municipality, Member of the Assam Bengal Railway Advisory Board, Member of the Dacca University Court, an Honorary Magistrate and a Member of the Governing Body of the Comilla College for several years before he entered the arena of politics. As the Chairman of the District Board, he took a very active interest in the matter of communications and the results of his endeavours in this direction may now be seen in the improved roads and well-built bridges widely spread over the district The Comilla Water Works and the Electric Supply, which have done inestimable benefit to the town, came into existence largely, if not absolutely, owing to the untiring efforts of the Nawab Sahib A service of immense value that he did, while in the District Board was the provision of rural water supply by boring tube-wells He encouraged the spread of education, higher and primary, in his district and it was he who was instrumental in raising the Comilla Victoria College from the second-grade to the first-grade institution that it is to-day.

He has been a member of the Bengal Legislative Council since the

introduction of the Montagu-Chelmsford Reforms and was the nonofficial Chief Whip of the Council till he was appointed in 1929 Minister to
the Government of Bengal in charge of Agriculture, Industries, Cooperation, Veterinary Department and Public Works. It is a matter
of no little honour and distinction that he was elected by the Bengal
Legislative Council to represent the Province in the Provincial Simon
Committee where his services were acknowledged with great appreciation by the Rt Hon'ble Sir John Simon. Nawab Sir Mohiuddin is the
Leader of the House in the Council and this is perhaps the only and
the first instance in the history of Provincial Councils that a Minister
(who was returned as an elected member) has been made the Leader.
The services that he has given as the Leader of the House, to the
country and the Government are worthy of his trained sagacity,
mature experience and wide knowledge of men and matters.

As a Minister to the Government Nawab Sır Mohiuddın has given effect to a considerable number of measures which have already had, or are likely to have in future, far-reaching results in improving the conditions of agriculture and industry of the Province He introduced and successfully piloted the State Aid to Industries Act, a measure of great promise and usefulness, inasmuch as it affords an opportunity to small and nascent industries to grow up with aid, as far as possible, from the Government His scheme for the relief of unemployment amongst educated middle-class young men is of great significance and is the first of its kind since the inauguration of the Reforms, intended to open up new avenues of employment through industrial development of the Province. The United Provinces Unemployment Committee, presided over by the Rt. Hon'ble Sir Tej Bahadur Sapru, PC, K.C.S.I, LL.D., has in its report many words of praise for the scheme. He took steps to establish Co-operative Land Mortgage Banks for the relief of agricultural indebtedness and his scheme for restriction in the cultivation of jute with a view to fetch a better income to the cultivators has been a measure of immense bene-He made serious endeavours to improve the animal husbandry of the Province and significant results are already available of the various agricultural researches taken up at his instance. The scheme for the training of detenus (persons detained for political reasons) in industrial and agricultural pursuits in order to afford them an opportunity to prove themselves useful citizens, is now having a trial and its results are awaited with interest all over India The Water Hyacinth Bill, introduced in the last winter session of the Legislative Council, is likely to be another measure of great importance, adding to the already numerous achievements of Nawab Sir Mohiuddin.

He enjoys the confidence of all sections of the people in the Province. In recognition of his meritorious services and activities he was honoured with the title of "Khan Bahadur" in 1924, with that of "Nawab" in 1932. On the New Year's day, 1936, His Majesty late the King-Emperor conferred on him a Knighthood, a distinction which he richly deserved.

AWAB DAWOOD ALI Khan, Dawood Jung Bahadur, son of the Nawab Sabit late Ali Bahadur, Khan comes of an old and respectable muslim family in Hyderabad, Deccan. He traces his descent from Nawab Abdul Hassan Khan Mujahid Jung, Shah Nawazud-Dowla Bahadur, who came to Hyderabad from Delhi with great Nizam-ul-Mulk Asaf Jah, the first Nizam. Shah Nawaz-ud-Dowla Bahadur was a staunch adherent of Nizam-ul-Mulk and stood by him through thick and thin, and his ser-

vices were always highly appreciated by that great statesman and Ruler. Many members of his family held high and responsible offices in the State and one of them, Nawab Talibud Doula Bahadur was for many years Kotwal (Commissioner of City Police). He was the first Kotwal of the City and in this capacity he faithfully served Nawab Nizam Ali Khan Bahadur and Nawab Secunder Jah Bahadur, the second and third Nizams respectively. The Nawab's Services as Commissioner of Police in those turbulent days were highly appreciated by the then Rulers who conferred on him Jagirs and Mansabs as a mark of their royal favour.

Nawab Dawood Jung Bahadur's grandfather, Nawab Mirza Shamsuddin Khan Bahadur, popularly known as "Abban Sahib", unlike his predecessors was keenly interested in business and engaged himself mainly in commercial activities. His knowledge of business, study of the markets and transparent honesty in all his dealings soon earned for him a great reputation.

Maharaja Chandu Lal Bahadur, the then Prime Minister of Hyderabad, elevated Nawab Shamsuddin to the position of a Taluqdar. Subsequently when he was delegated to administer the districts of Aurangabad, Berar and Balaghat, he brought the administration to a high pitch of efficiency and increased the prosperity of the districts by his good management and business ability. He was a very philanthropic nobleman and spent quite a considerable amount of money on works of public utility He manifested his loyalty to the ruler in a practical manner by

building an Abdar-Khana in the midst of an extensive garden in Koh-e-Moula in the eastern suburbs of the city where the ruler stayed during the time of his visit to the Moula Ah Uroos. Among his philanthropic works, a canal and a ghat stand out prominent. The former, in Khuldabad, was constructed anew out of the traces of a dilapidated canal of very ancient times. The ghat was almost impassable for travellers, but as it could provide an excellent exit to Burhanpore, Berar, Balaghat and Northern India, he incurred heavy expenditure in levelling and rendering it easily passable. The ghat is now known as Nizam Ghat. In addition to these, he built many Abdar-Khanas and Serais which serve as memorials to his name. Nawab Mitza Sabit Ah Khan succeeded Nawab Shamsuddin and added further lustre to the name of this family.

By SAMUEL T. SHEPPARD.

A CCORDING to the preface, this book is "only a nibble at a few chapters" of the history of the City of Bombay, "made for the benefit of the many people who want to know something about Bombay but who cannot find any book to satisfy their desire."

He deals with the early history of the Island; why it was ceded by the Portuguese and how the East India Company got it; with reclamation from the early British days to modern times (a chapter which contains much from the India Office records that has never been published before); and with defence, industries and trade, the growth of the town, population, religion and learning, and social diversions.

"Perhaps wisely the volume before us says little or nothing about politics. But it does convey a sense of the tremendous energy and enterprise that has gone to the gradual building up of the life of the great communities of India."—The Statesman.

The book contains 24 full page illustrations.

FIRST, your product is turned over to the Ideas Dept. There, the strongest selling point of all is found and titles and sub-titles are derived from that source. Next, the layout man takes control. He plans the presentation of your folder, bookletor whatever it may be. It is then passed on to the Copy department which writes up the matter. And the final item of the early stage of this intricate 10b is the estimate. This, together with the layout and copy is sent to you.

Immediately your instructions are received, the finished drawings are carried out—or photographs are taken. Blocks are made. The choice of type is decided upon. The job is set up—proofs are taken and sent to you for approval. As soon as your O. K. arrives

the machines begin to run... StepAfter that

comes the bookbinding section—trimming, folding, stitching or stapling. Except for packing and despatching your job is finished. It is ready to sell your product.

Something that has not only been printed exceedingly well, but includes creative thought which only expert craftsmen can give. And the latter is entirely FREE - you pay only for the printing.

Give your next printing order to the Times of India Press. Just one warning; if it is small, you'll only come back with a larger one next time.
